To the framework committee: 10<sup>th</sup> Grade Monitoring Progress Example

Please consider adding this question to the students:

In the struggle of memory against forgetting, the history of the Armenian Genocide is just as critical in the teaching of World War I as is the profound teaching of the Holocaust during WWII. ***Students should meet in groups of four to analyze and develop a line of reasoning how the Armenian genocide became the template for the Holocaust.***

Thank you once again for your time.

The teaching of history 30 years from now will be a reflection of the intelligent choices printed in the 2015 California framework. You may not be aware that publishers of history determine the depth of history they publish in their textbooks is a direct reflection from the State's Education framework.
